

Board of Directors: Overview

The success and quality of symphonic music in our community is the result of many dedicated volunteers: musicians, community volunteers and the Board of Directors. The background support of the Board of Directors is instrumental to the health and progress of our organization. The board is responsible for the financial stability of the orchestra, fund-raising, making policy decisions, determining the long range goals and directions the symphony takes, and assisting in the many background tasks that produce a quality concert series.
